The Zodiacal Light. From Harper's Weekly

There is a strange light in the heavens, appearing after sunset in the late winter undertaken for the purpose of studying the effects of the unclouded sun on the dry air of the desert.

The mysterious light, in the form of a vast triangle, rising high in the heavens, appeared nearly three times as bright as the Milky Way. Science has not entirely solved the problem of the origin of this From there it went to the Collegiate light, but it is thought that it is an ap-
